Objective: Emerging Blockchain Developer seeking an opportunity to work on your project.A hard-working and self-motivated student, versed in full stack web and blockchain development constantly willing to learn new technologies and help to develop and further advance your product.

HIGHLIGHT OF QUALIFICATIONS

- Highly developed communication and negotiation skills through previous employment and sales experiences.
- Advanced skills in industry standard software.
- Strong ability to adapt to different working environments and conditions.

TECHNICAL SKILLS

Programming:	Solidity, Java, C/C++, Go,Eiffel, MySQL, PostgreSQL
Web:	NodeJs, ReactJs
Applications:	Hyperledger Fabric, Ethereum, Docker, Jenkins, Firebase
Operating Systems:	Assembly Programming, Digital Logic Design, Microcontrollers
Mobile Technologies:	Android

EDUCATION

Blockchain Development Cert.   Sep 2019 - August 2020

George Brown College | Toronto, ON

- Introduction to Smart Contracts
- Blockchain Architecture
- Smart contracts essentials
- Crypto Economics
- Full Stack Web Development
- Blockchain Security

Computer Science BSc.   Sep 2017 - April 2020

York University | Toronto, ON
- Android App Development
- Design and analysis of Algorithms
- Software Design
- Introduction to data structures

Software Engineering BEng.   Sep 2016 - April 2017

Lakehead University | Toronto, ON
- Digital Logic Design
- Microcontrollers

Academic Project
Full stack Web Development Projects   Sep 2019

George Brown College | Toronto, ON

- Created a project such as Ethereum Wallet, Image Gallery, Blockchain based voting Platform etc.
- Worked as a team player in a group of 3.
- The projects were part of the courses which covered back-end and front-end web development.
- Each project took around a week to complete.

Blockchain Development Projects   Sep 2019
George Brown College | Toronto, ON
- Created a ERC-20, ERC-721 based tokens ensuring the blockchain security principles.
- Worked on the economics and regulatory implications of the designed tokens.
- Used technologies such as Jenkins, Docker and Truffle to automate, containerize and test the contracts.

Android App Development   Sep 2017
York University | Toronto, ON
- Developed android apps using Java and Android IDE.
- Apps Include: Calculator, POS, Tic – Tac- Toe game.

CERTIFICATES

Certified Hyperledger Fabric Developer (CFDev)   Dec 2018
The BlockchainHub | Toronto, ON
Credential ID CFD01023

PROFESSIONAL EXPERIENCE

Junior Blockchain Developer   Mar 2020 - Present
CapitalMethods | Toronto, ON
- Developing Smart Contracts.
- Interacting Etherum with Backend.
- Developing the CI/CD pipelines for deployment and testing.
- Testing the smart contracts.

Junior Blockchain Developer (Intern)   Oct 2019 - Dec 2019
fazeZero | Toronto, ON
- Developing Hyperledger fabric network based on docker containers.
- Developing Node Js chaincode and applications.
- Debugging the issues of the network.
- Upgrading the current network to the latest version.

VOLUNTEER & COMMUNITY INVOLVEMENT

Event Assistant   Sep 2017 – Sep 2019
LaunchYu | Toronto, ON
- Assisting in creating marketing plans for the event..
- Assisting with the event organization.
- Assisting with the event promotions.
- Serving as receptionist and greeting guests.
